My Dear Students,

I can't believe that this is how we have to finish this year. I feel like I cheated out of getting the chance to work and grow with you. Again I want to thank everyone for working to get all assignments completed and turned in from March and April. Especially to those of you who reached out for online lessons. It felt good to teach! As we get ready to wrap up the year with this last round of work, I can not stress enough how much you are not bugging me when you ask for help.

We are going to do a shortened Chapter 9, focusing mainly on section 1. Make sure you are reading the book and taking notes on information you need help understanding. Check google class daily because I will be posting extra notes and assignments as grade boosters. I will be continuing with office hours once a week for general questions and checking in but we can meet in Zoom any time!!!

The following list is an outline of what to do and the recommended order to complete the activities. Like last time, some of the stuff is not graded and is meant to help you learn the material. If you are requesting hard copies know that many of the assignments will look different in google classroom because I am making them so they can be completed and turned in easily online.
Anatomy Assignments and Activities - May

1. Read the Peripheral Nervous System Notes
2. Complete the Nervous System Lab (graded)
3. Read/study the two “Whole Chapter Concept Maps”
4. Complete the “Nervous System Concept Map Worksheet” (graded)
5. Complete the Book Review (graded)
   - Pages 296-298
     - (9.1) Do all
     - (9.2) Do all
     - (9.3) Do all
     - (9.4) Skip 1, 2, 6
     - (9.5) Do all
     - (9.6) combine 1 and 2, skip #4
     - (9.7) Do all
     - (9.8) Skip all
     - (9.9) Skip all
     - (9.10) Do all
     - (9.11) Skip #1
     - (9.12) Do all
     - (9.13) Do all
     - (9.14) Skip 5 and 8
     - (9.15) Skip 3, 4, 6
     - (9.16) Skip 3, 5
     - Integrated Assessments: Skip 1-4

6. Take the nervous system test (graded)

For extra credit find 3 hemisphere dominance tests that you can take online and send your results, with the websites you used, in google classroom or to my email. This is pseudoscience but fun and kind of related to this chapter.

How to contact Ms. Halberg

1. Message through remind
2. Email through cck12.org staff directory
3. Message through google classroom

You will get a faster response from remind or phone messages!
