PARENTING
Melanie Studer

**Week #8 May 4-8: ASSIGNMENT:** We are going to do something a little different this week. I enjoyed your class so much and there was soooo much more that I wanted to cover in Parenting and we missed out on a lot, like watching a baby be born. ;) Thought about zoom meetings, but I am not usually still up at 3:00 am when you are, so I decided to do a video instead. I will cover some childbirth topics, so **you will not want to watch this with younger siblings around.** All of you are signed in on google classroom, so simply go to classwork tab & there is a link under this week’s assignments. You may watch the video on your smart phone if you don’t have internet.

Take notes as you watch and you will write a minimum of 15 key points that you learned from the lecture. You will turn your notes in by Friday, May 8.

**TURNING IN YOUR ASSIGNMENTS EACH WEEK:** Same as previous weeks

A. You will continue to turn your assignments into your google classroom/google docs

    or

B. Screen shot on phone and email them to me at lastname.firstname@cck12.org

**LAST WEEK OF ATTENDANCE:**

I will continue to have a question for the week posted and you must respond between Monday, 7:30am - Friday at 3:00pm. It has been fun reading your responses!
WEEK #9 MAY 11-15 DIRECTIONS:

How have you and your family handled this COVID 19 situation? After watching the youtube video link below, select 2 of the scenes that relate the most to your family. Write a paragraph for EACH scene, comparing/explaining how you can relate to this from the past 6 weeks at your house. You will have a total of 2 paragraphs (3-5 sentences each) to submit to me by Friday, May 15. Enjoy! 😊
