

# Colonel Crawford High School

High school is one of the biggest eras of your life and the experiences you encounter throughout these years will create memories that last a lifetime. A long-lasting tradition of your high school experience is your class ring. Your class ring represents that journey you take over these next few years. It captures a sense of pride and accomplishment in the things that you are involved in throughout high school and is also a sign of the value of education you will receive. Now is your opportunity to be a part of that endless tradition.
